

TRANSPORTATION OF CHILDREN

POLICY STATEMENT

Our service is committed to providing transportation that is well considered and planned to ensure the health safety and wellbeing of children at all times during one-off excursions or regular outings.

Our service relies on walking excursion in our CBD currently but may, in the future, use transport means such as a bus to take children on one-off excursions or regular outings.

We will take specific steps to ensure the health, safety and wellbeing of children.

We will identify and manage risks associated with;

- 1) Transport associated with excursions
- 2) Transport for single or regular journeys
- 3) Embarking and disembarking the means of transport including how each child is to be accounted for on boarding and disembarking

STRATEGIES

PLANNING

When planning for transportation, staff will;

- I. Assess the requirements for the transportation
- II. Conduct a risk assessment
- III. Book transport
- IV. Make alternative arrangements for adverse weather conditions
- V. Inform families of the details of the transportation including pick up and destination, objectives and outcomes, requirements, and the availability of a risk assessment
- VI. Provide parents or other person named in the child's enrolment record as having authority to authorise transportation of a child, with a transportation authorisation form to complete
- VII. Collect completed authorisation forms for each child using the transportation
- VIII. Request additional adult participation for the transportation where required
- IX. Arrange for a suitably equipped first aid kit (including EpiPen) and mobile phone to be readily available for the transportation
- X. Consider any additional factors in the planning of transportation for children with additional needs. Where possible, our service will uphold the right for all children to access all transport.

RISK ASSESSMENT

- I. A transport risk assessment will always be conducted before our service transports a child / children to evaluate risks each time transportation is used.
- II. The Nominated Supervisor will ensure that the risk assessment identifies and assesses the risk the transport may pose to the safety, health and wellbeing of any child whilst using the transport, and will specify how the service will manage any risks identified.
- III. Once risks have been identified, they will be categorised as high, moderate or low and management of the risks will be detailed

- IV. Educators and any responsible adults using the transport are aware of the service's policy and procedures that set out the instructions for what must be done in the event of an emergency (regulation 97[1][a]) and are aware of the risk assessment for the transport.
- V. Service providers, nominated supervisors, educators and drivers will ensure a risk assessment identifies and assesses the risk transportation may pose to the safety, health and wellbeing of all children during their transportation on vehicles and movement to and from a vehicle and the service or other premises and will specify how the service will manage any risks identified.
- VI. Before using the transport, risks are checked including the weather to assess any increases to the level of risk and whether the transport can proceed
- VII. A procedure for each route of travel will be created in line with the risk assessment and will outline specific educator responsibilities, including the use of strollers and safety restraints.

The risk assessment conducted will consider;

- I. The proposed route and duration of the transportation, including estimated time of travel between the different locations
- II. Each of the proposed pick-up locations and destination
- III. The means of transport
- IV. The purpose of transport
- V. Any requirements for seatbelts or safety restraints under a law of each jurisdiction in which the children are being transported
- VI. Any water hazards on the proposed route travelled and at each stop
- VII. Number of adults and children involved in the transportation
- VIII. Given the risks posed by transportation, the number of educators or other responsible adults that is appropriate to provide supervision and whether any adults with specialised skills are required
- IX. Whether any items should be readily available during transportation (eg: a mobile phone, list of emergency contact numbers for the children being transported, first aid kit)
- X. The process for entering and exiting the service premises and the pickup location or destination as required
- XI. Procedures for embarking and disembarking the means of transport, including how each child is to be accounted for on embarking and disembarking
- XII. Strategies for accounting for all children using the transportation, particularly during embarking and disembarking the vehicle.

STAFFING ARRANGEMENTS

- I. Educators using the transportation will be no less than the number prescribed in the Education and Care Services National Regulations, and depending on the supervision requirements, may need to be higher to ensure adequate supervision.
- II. The number of educators will also be adequate to supervise any responsible adults who volunteer to assist with the transportation
- III. Services must ensure that the number of educators or other responsible adults involved in the transportation of children,

TRANSPORTATION OF CHILDREN

including when children are embarking or disembarking the vehicle, is adequate, effective and ensures active supervision.

- IV. A nominated supervisor or a staff member (other than the driver) must;
 - a. Be present when children embark and disembark a vehicle at the service premises
 - b. Account for each child when they embark and disembark a vehicle at the service
 - c. Complete a check of the interior of the vehicle after all children have disembarked at the service premises to ensure there are no children left on the vehicle
- V. Where an educator assumes the responsibility for driving the bus (and holds the relevant licence to drive), they are not considered to be included in the ratio to meet ratio requirements
- VI. Consideration will be given to the number of educators who have required first aid qualifications and the number of educators required to educate and care for children who remain at the service.
- VII. Where a group of children are taken on transportation while a number of children remain at the service, at least one educator who holds the following qualifications must be in attendance at both the transportation and at the service where children are being educated and cared for, and must be immediately available in an emergency. At least a staff member or one nominated supervisor of the service;
 - a. who holds a current approved first aid qualification.
 - b. who has undertaken current approved anaphylaxis management training
 - c. who has undertaken approved emergency asthma management training (regulation 136 [1])
- VIII. All educators attending the transportation will be made aware of the service's policy and procedures that set out the instructions for what must be done in the event of an emergency (regulation 97 [1][a]) and are aware of the risk assessment for the transportation.

FAMILIES AND VOLUNTEERS

- I. Families will be encouraged to participate in transportation to increase the number of responsible adults and assist in ensuring the health, safety and wellbeing of children.
- II. Families and volunteers cannot be counted in order to meet ratio requirements under the Education and Care Services National Regulations.
- III. Family members wishing to attend will be mature, responsible people who are aware of the hazards and responsibilities of taking a group of children out of the service. If the responsible adult needs to bring their child's sibling because they cannot find suitable care, the responsibility provided to this adult will be adjusted accordingly and considered in the risk assessment.
- IV. Family members / volunteers will not be left in sole charge of children (including their children) and must be supervised by and educator at all times.
- V. All responsible adults attending the transportation will be made aware of the service's policy and procedures that set out the instructions for what must be done in the event of an emergency (regulation 97[1][a]) and are aware of the risk assessment for the transportation.

CONDUCTING THE TRANSPORTATION

- I. All Educators, volunteers and children using the transportation will be informed of transportation timetable / itinerary, special requirements, safety procedures, grouping of children and responsibilities.
- II. A list of children using the transportation will be left at the service and a copy carried by the delegated responsible person.
- III. Items to be readily available when transporting children include;
 - a. A suitable stocked first-aid kit, including EpiPen, a list of adults involved in transportation and contact information for each.
 - b. An operating mobile phone with an appropriate telephone network or other means of communicating with the service and emergency services.
 - c. A list of children involved, including children's contact information, emergency contact numbers and the child's registered medical practitioner or medical service.
 - d. Children's medication, health plans and individual risk assessment, and
 - e. Other items as required eg: sunscreen, drinking cups, jackets, hats, hygiene products, etc.

RECORD KEEPING AND ACCOUNTING FOR CHILDREN DURING REGULAR TRANSPORTATION INCLUDES;

- I. The approved provider and nominated supervisor must ensure that records are kept for regular transportation that;
 - a. Confirm each child was accounted for when embarking and disembarking the vehicle at the service premises
 - b. State how each child was accounted for at the service premises
 - c. State that the interior of vehicle was checked after all children have disembarked at the service premises.
- II. The records must be made immediately and include the time, date, full name and signature of the person/s responsible for;
 - a. Accounting for the children during embarking and disembarking of the vehicle
 - b. Conducting the vehicle check after children have disembarked

MANDATORY NOTIFICATIONS

From 1st March 2023, it is mandatory to notify the regulatory authority that your service provides or arranges regular transportation. The notification is to be lodged through the NQAIT System.

- a. The approved provider must notify the regulatory authority in a service approval application, or if the service is already approved, within seven (7) days of regular transportation being provided or arranged by the service.
- b. The approved provider must notify the regulatory authority within seven (7) days if the service starts or stops providing or arranging regular transportation.

TRANSPORTATION OF CHILDREN

ROLES AND RESPONSIBILITIES

Approved Provider responsibilities

1. Assume responsibility under the National Law for the safety, health and wellbeing of all children at all times that children are in the care of the service.
2. Ensure that any child being educated and cared for by the service is not transported by the service or in transportation arranged by the service unless written authorisation has been given.
3. Ensure that records are kept for regular transportation.
4. Ensure that the regulatory authority is notified that the service offers, provides, arranges or ceases regular transportation.
5. Ensure the service has policies and procedures for transportation (Regulation 168 (2)(ga)) including;
 - a. Procedures that address requirements for risk assessments (regulations 102B and 102C)
 - b. Written authorisations (regulation 102D)
 - c. Record keeping requirements (102E and 102F)

Nominated Supervisor / Responsible Person responsibilities

1. Taking steps to ensure the health, safety and wellbeing of children when being transported by or on transport arranged by the service.
2. Ensuring that any child being educated and cared for by the service is not transported by the service or in transportation arranged by the service unless written authorisation has been given.
3. Ensure that the number of educators or other responsible adults involved in the transportation of children, including when children are embarking or disembarking the vehicle, is adequate, effective and ensures active supervision.
4. A nominated supervisor or a staff member (other than the driver) must be present when children embark and disembark a vehicle at the service premises.
5. Only allocating educators to attend transportation of children who understand, and are confident with, the transport risk assessment and any associated policies and procedures.
6. A staff member or nominated supervisor (other than the driver) being present at the service to account for all children as they embark and disembark at the service premises and keep a record of how each child was accounted for.
7. A check of the interior of the vehicle to ensure there are no children left behind.
8. Ensuring items to be taken on transportation are well stocked and easily accessible.
9. Ensuring first aid items taken on transportation are fully stocked and current, including emergency medication.
10. Only using / fitting child restraints in accordance with the National Child Restraint Laws and the mandatory standard AS/NZS 1754 Child restraint systems for use in motor vehicles.
11. Ensuring that the transportation means meets all safety requirements for the transport of children, insurances,

including approved child restraints, fire extinguishers and emergency exits.

12. Ensuring that sufficient educators are in attendance on the transportation to meet the Education and Care Services National Laws, Regulations and supervision requirements across the service. The transport operator / driver will not be included in this ratio.
13. Ensuring that service transportation is kept clean and tidy
14. Ensuring that any chartered transport companies provide evidence of the operators WWCC and that this is verified before the use of the transportation.
15. Ensuring that any chartered transport companies provide evidence of the operator's WWCC (or equivalent), and that this is verified before the use of the transportation.
16. Ensure that records are kept for regular transportation.

Educator responsibilities

1. Taking steps to ensure the health, safety and wellbeing of children when being transported by or on transport arranged by the service.
2. Following all service policies, procedures and risk assessments in relation to transportation and child protection.
3. Conduct and document regular head counts as detailed in the transport risk assessment.
4. Remaining responsible for all children being transported and provided particularly close attention to any children in their assigned group.
5. Complete records accounting for the children embarking and disembarking the vehicle at the service premises.
6. Conduct the vehicle check after children have disembarked.
7. Promoting a safe and secure transportation journey for children engaging in meaningful interactions throughout.
8. Maintaining items that are taken on transportation in a neat and organised fashion. Notify the responsible person of any items that need replacing and ensure the items are returned to their designated space at the conclusion of transportation, ready for their next use.
9. Communicating with other staff before and during the transportation to keep children safe and implement any risk minimisation strategies.
10. Ensuring relevant medical plans, risk assessments, medication and contact details for each child attending the transportation are readily available.
11. Ensuring that no child is ever left unsupervised on any transportation.
12. Ensuring that all safety restraints are used correctly before and during transportation.
13. Removing children who are in strollers first, ensuring stroller brakes are on, before assisting other children. This is always to occur on the side of the vehicle away from traffic and, wherever possible, in a position where road crossing is not required.
14. If driving, carry their current drivers license with them at all times.
15. Not using their mobile phones while directly responsible for children, other than for the purposes of the transportation or in an emergency.

TRANSPORTATION OF CHILDREN

16. Implementing road safety activities and messages with children across the service program.
17. Role modelling road safety practices at all times.

Family's responsibilities

1. Nominating on their child's enrolment record, any persons having authority to authorise transportation of their child.
2. Notifying the service of their child's absence, or any changes to authorisation for transportation.
3. Role modelling road safety practices, including holding their child's hand when arriving and departing the service.
4. Never leaving a child unattended in a vehicle while delivering or collecting other children from the service.
5. Using and fitting correct child restraints.

RELATED GUIDELINES, STANDARDS, FRAMEWORKS, LEGISLATION

National Quality Standards

Quality Area 1: Education Program and Practice – Standard 1.1

MONITORING, EVALUATION AND REVIEW

This policy will be monitored to ensure compliance with legislative requirements and unless deemed necessary through the identification of practice gaps, the service will review this Policy every two years.

Families and staff are essential stakeholders in the policy review process and will be given opportunity and encouragement to be actively involved.

In accordance with R. 172 of the Education and Care Services National Regulations, the service will ensure that families of children enrolled at the service are notified at least 14 days before making any change to a policy or procedure that may have significant impact on the provision of education and care to any child enrolled at the service; a family's ability to utilise the service; the fees charged or the way in which fees are collected.
